## ON 'CHANGE.

Spot Cotton Unchanged, Futures from One to Two Points Higher. Money Market Easy.

Wheat Opened Firm, Fluctuated and Closed at a Decline-Live Stock Transactions were Brisk.

FORT WORTH, TEX., Feb. 16, 1887.

Trade was above a good average to-day in all lines. Prices are generally firm at quotations.

Seed corn, wheat and oats are in good demand.

THE STATE OF TRADE.

Special telegrams to Bradstreet's point to a moderate improvement of general trade compared with one week ago. At New York, Cincinnati, Louisville, Kansas City and Dallas the movement of merchandise is relatively more active, while at Boston, Philadelphia, Pittsburgh, Cleveland, Miladelphia, Pittsburg sas City and Dallas the move-ment of merchandise is relatively more active, while at Boston, Phila-delphia, Pittsburgh, Cleveland, Mil-waukee, St. Paul, Chicago, Minneapolis

ment of merchandise is relatively more active, while at Boston, Philadelphia, Pittsburgh, Cleveland, Milwaukee, St. Paul, Chicago, Minneapolis and New Orleans there are no conspications ous gains. Business is comparatively quiet at St. Louis, Burlington, Ia. Savannah and Galveston Trade has been interfered with at the west by floods, impassable wagon roads, and by unseasonably warm weather south and southwest. Mercantile affairs at the east have been relieved in part from the embargo caused by strikes at and near New York.

The New York longshoremen's and New Jersey coal-handlers' strikes are now generally recognized as failures. The total number of striking employes this week is 5100, or 15,000 during February and 93,000 since January 1. These, with 38,000 men thrown out of work from other causes within six weeks, account for 131,000 stopping work during 1887. These men have lost \$3,000,000 in wages, have reduced the total vaine of foreign trade \$3,380,000 at least within two weeks, and at New York alone have entailed \$900,000 extra expense on employers and the public. Nearly all larger centers record decreased cleatings. During the first half of Feb. expense on employers and the public. Nearly all larger centers record decreased clearings. During the first half of February New York's total clearings have declined about \$37,000,000, against a decline of \$4,000,000 in a like portion of 1886, an increase of \$89,000,000 in 1885, and a decrease of \$26,000,000 in 1884. Domestic money markets have been slightly stronger both east and west, but rates do not vary much. Mercantile collections are fair only, western and southwestern points reporting them slow. The stock market is stronger and

higher. Abroad the markets have recovered, and foreign selling is arrested, while the depressed feeling regarding strikes and the inter-state law is allayed. Manipulation, however, seems to be largely responsible for the activity and strength exhibited. Transactions were 2,178,117 shares, against 1,787,615 shares for the preceding week and 2,600,789 and 2,045,-707 for the same week in 1886 and 1885 respectively. Bonds are in better demand and stronger. Sales were \$8,500,-00 in amount, against \$8,790,500.

Forty-one railways with one-fourth of the total mileage, report to Bradstreet's over \$19,000,000 increased gross earnings in 1886, or 8 per cent., operating expectations of the total mileage, report to Bradstreet's over \$19,000,000 increased gross earnings in 1886, or 8 per cent., operating expectations of the total mileage, report to Bradstreet's over \$19,000,000 increased gross earnings in 1886, or 8 per cent., operating expectations are to the total mileage, report to Bradstreet's over \$19,000,000 increased gross earnings in 1886, or 8 per cent. in 1886, or 8 per cent., operating expenses \$11,500,000 heavier, or 7½ per cent., and net earnings \$7,500,000 heavier

than in 1885, or 3 per cent.

The check in the demand for iron, reported by Bradstreet's a fortnight ago, has become pronounced, and it is not thought that prices of raw iron are likely to advance in the near future. The de mand for Pittsburgh bar is heavier than at any time since the war, and requests are coming from districts which never sent to Pittsburg before. Nails are improving in demand and steel nails are 10c higher. Orders for cotton goods are increasing at Thousands of good people in the older states would start for Texas at once it they knew what a grand country we have. The weekly Gavetire will better information by subscribing to it for the friends to be subscribed to the first than any other means. Will support them on this than any other means. Will you got help to distribute this information by subscribing to it for the friends to the first than any other means. The recent advance of Rhode Island worsteds prices has been canceled. Fall five print mills claim that they have been making but 5 per cent. profit within a year after several years of no profit. Attention has been centered upon the amount of cotton still at small towns and on plantations. Readstreet's reports from 171 tions. Bradstreet's reports from 171 towns that stocks on hand there February are \$2,092 bales less than at the same

Henry Pollack & Co. the short crop year. Less than 4000 bales of wool have been taken in London for America. Domestic markets are more active and prices are steady. Holders of wool have stiffer views. Wheat has de-Cases. Repairing and Covering neal some that more is to go. Decreased receipts of hogs and reports of poor condition, reduced holdings of products, and heavier shipments have advanced pork 75 cents per barrel and lard 1-5 cent per pound, with the west buoyant and the east firm. Coal prices are unchanged, except that as freights from Buffalo to Chicago are 50 cents per ton higher (February 14). prices at Chicago are expected to advance to that extent. The decline of 5 cents net per barrel in petro-

leum prices has been in part recovered Free selling after long holding, with little or no outside demand, caused the selling. The total number of failures reported to Bradstreet's this week is 237, against 242 last, 227 in 1886, 350 in 1885, 257 in 1884 and 256 in 1888. Canada had 36 against 33 last week. For the year the total for the United States is 1734 against 1879 in 1886, 2324 in 1885, 1880 in 1884 and 1640 in 1883. Canada has had 161 this year, against 166 last .- Brad-
